Browse Titles

Browse titles displays the titles of all available issues in alphabetical, then chronological order, with thumbprints.

Navigation Toolbar

Activate Pan/Zoom mode by double clicking the mouse in an area of interest, or press and hold the mouse button to scroll/pan the image.

Click and drag a box around an area of the image to extract text.

To zoom in or out (make the image larger or smaller), press the + or - key, or select the level as a percentage of the full page. The new zoom level will remain in effect for all pages in the current issue unless you change the zoom level again or access a new issue.

To display a specific page in the object, select the page you want to view from the Page box, or click the arrows to move forward and backward.

Search within the page for a word.

Display metadata for the page.

Convert the page into a pdf file for saving or printing.

Adjust the image of a page :

to fit the height of your browser window,

to fit the width of your browser windows,

to turn the page 90 degrees clockwise,

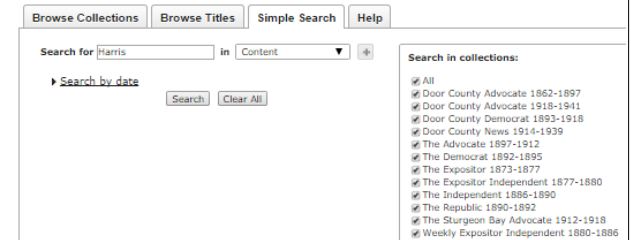

to remove the menu and enlarge the image to fit the entire viewing area.

Capture screen shots with the snipping tool available on Windows (XP and later) and Macintosh computers

Simple Search

Simple search performs a keyword search of all collections at once, or can be performed on one collection title at a time. Search results vary depending on the quality of the original image of the newspaper. Results can be filtered by date.

Use simple search to narrow the search by date:

* is a wild card, so that 1870-01* will search all newspapers printed in January of 1870. Also use it with names - Ch* would find Charles, Chs and Chas

Search Results

Search results are highlighted in yellow making them easy to spot on the page.
