## 3 Visit Wisconsin’s virtual library branch

1. Visit <http://dbooks.wplc.info> and log into “My Account,” using “InfoSoup Libraries,” your library card number and pin number.
2. Browse for a title. You can download EPUB (best choice) and PDF eBook formats to your eReader. (Advanced search lets you narrow down the format to ePub (best choice) or PDF books only.)
3. Click “Add to My Cart,” then “Proceed to Check” out and choose a check out period of 7, 14, or 21 days. (If a book is not available, you can put it on hold)
4. “Confirm Checkout,” then “Download” the title.

## 4 Transfer to your eReader

1. When you download your title, Adobe Digital Editions opens automatically.
2. Connect your eReader to the computer. The first time you connect the eReader, you will need to authorize it. Follow the prompts. Use the same email address you entered as your Adobe ID. Click on the three-book icon (library view) in the upper left corner. When the connection is complete, an icon for the eReader should appear under bookshelves in the left column of Adobe Digital Editions. If it doesn’t, wake up your eReader.
3. Drag and drop the eBook to the eReader icon. (Watch for the green +)

## 5 Read the book

- If you have a Nook, go to My Library>View My Documents. If the eBook isn’t visible, select “Check for New Content”
