

Peninsula Genealogical Society - Door Co., WI

INDEX OF SURNAMES

in Family Histories at the Laurie Room - DC Library

Created by the PGS/2009-2010-2011 - In Progress-work meeting of 23 Sep 2010 included!

Updated 25 May 2011

This is an INDEX OF SURNAMES to the FAMILY HISTORIES found at the Laurie Room of the Door County Library in Sturgeon Bay. The PGS began in 2009 to extract the major surnames - **Not all surnames in each volume are included!** - we are trying to pick out the ones most prevalent in the family histories. It is our hope that this Index will help everyone to be able to use the wonderful resource of the Family Histories at the Laurie Room more effectively.

Included in the index is: SURNAME, LOCATIONS (where the surnames lived if known), TITLE of the Family History as well as date when published if known, Author's name, any Address that may be possible to contact the Author - and Call Number on the [Library Laurie Room](#) shelf.

Previous to this Index, a person had to look through each and every one of the Family Histories, many of which do not have an index of their own, to possibly find an ancestor or someone who is researching the same family line. The Index will also be available in hard copy at the [Laurie Room](#) for use by patrons.

When you find a surname that is of interest to you, you can find the volume easily on the bookshelf. Also, if you are unable to visit the Laurie Room in person, you could contact the author of the family history or the [Door County Library](#) to request information regarding that surname from a family history. Perhaps the volume you are in need of has been digitized on-line or is available at another Library near you.

This index will be updated with additional names as we continue to work on this project, so check back in the future for updates!

26 Feb 2010-work meeting of 25 Feb 2010 of the PGS added to this index.  
22 Sep 2010-work meeting of 22 Apr 2010 of the PGS added to this index.  
25 May 2011-work meeting of 23 Sep 2010 of the PGS added to this index.
